

Distributed CCAP DOCSIS 3.1 Indoor Node

Product

DEV 6811 Distributed CCAP DOCSIS 3.1 Indoor Node

DEV 6811 Introduction

DEV 6811 production is based on DOCSIS3.1 / DOCSIS 3.0 / Euro-DOCSIS 3.0 / C-DOCSIS. 6811 is a high-performance and cost-effective cable network edge device.

DEV 6811: 1RU equipment cabinet type, support 10GE uplink, support end-to-end QoS and unified network management.

Features

- ▀ Compatible with DOCSIS 3.1 / 3.0 / 2.0 / EuroDOCSIS / C-DOCSIS
- ▀ Supports RMD Controller centralized Management
- ▀ Remote Operation and Management
- ▀ High Bandwidth: 10 Gigabit Level Access
- ▀ Supports PacketCable / PacketCable Multimedia (PCMM), and Multi-Service Applications including Internet, Video and interactive VOD Application
- ▀ End-to-End QoS Support
- ▀ Redundant Power Supply
